- Portfolio Website [Link](#)
- Temperature Converter Website [Link](#)

## Projects

### Brick Breaker

This is a Java implementation of the classic arcade game Brick Breaker. The game involves breaking bricks using a paddle and a ball, with the goal of clearing all the bricks to win the game.

- Gained hands on experience in java language and concepts including java swing and OOPS.
- [Break-Breaker Project Link](#)

### TO-DO List

Developed a to-do list application using React, enabling users to efficiently manage tasks with a clean, interactive interface and real-time updates.

- [TO-DO List](#)

### Portfolio

Designed and developed a personal portfolio website to showcase my skills, projects, and accomplishments, utilizing modern web technologies and responsive design principles. The portfolio highlights my expertise through interactive features and a user-friendly interface, providing a professional online presence.
